

Features

- Designed for the 1.2M NXT auto point antenna
- Constructed with extruded 6061-T6 aluminium tube, welded in place
- Closes to protect antenna during transport
- Slots for lift truck forks for easy warehouse or outdoor lifting
- 4 - Twist Latches with padlock provisions
- Stackable to reduce foot print when shipping or in storage
- Optional Cable Reel secures neatly beside the antenna during transport
- Combined with the NXT, it is a ship and deploy solution without any alteration
